Kamai SMARTCAN – an expert in mobile water storage and transportation solutions

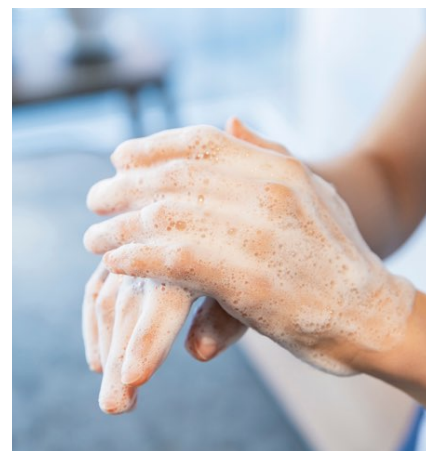

Kamai SMARTCAN offers reliable solutions for anyone who needs easy access to water—while traveling, camping, working in the field, or enjoying outdoor activities. Our water containers are designed for situations where mobility, convenience, and reliability matter most—from expedition vehicles and yachts to construction sites, outdoor events, and farms.

Our products are designed with functionality, durability, and ease of use in mind. We offer a wide range of models equipped with taps, soap dispensers, ventilation systems, and sturdy mounting brackets for vehicles—making them the perfect choice for those who value mobility and dependable performance.

- **Mobility and Convenience** – lightweight, ergonomic, and easy to transport, our containers provide access to water wherever it's needed.
- **Versatile Use** – ideal for travel, camping, recreational vehicles, boats, and any situation where clean water is essential for drinking, washing, or cooking.
- **Safety and Quality** – made from high-quality materials safe for contact with drinking water, they meet European standards and are resistant to mechanical damage.
- **Innovative Solutions** – smart dispensing and ventilation systems, along with sturdy mounting brackets, ensure user comfort even in the most demanding conditions.

We offer solutions that combine durability, functionality, and reliability. Our products come in a variety of capacities and configurations, allowing users to choose the perfect fit for their individual needs.

Kamai SMARTCAN – dependable solutions for travelers, campers, and anyone who values convenient access to water in any situation.

Kamai SMARTCAN Water Canisters – Reliability for Every Journey

Our durable containers are designed for maximum functionality and user convenience. A sturdy handle ensures comfortable transport, while the ergonomic tap allows for precise water dispensing. The cap and air vent make pouring smooth and prevent vacuum formation, enhancing ease of use. Additionally, the optional soap dispenser adds even more practicality—perfect for handwashing while traveling or camping.

Thanks to the option of mounting on dedicated brackets, Kamai SMARTCAN containers help save space and can be positioned exactly where you need them. They're a perfect alternative to single-use bottles—a practical, eco-friendly, and cost-effective solution for every journey.

Our products are made from certified materials that meet the highest safety standards. They have undergone all necessary testing and hold certifications confirming their full compliance with food contact regulations. This ensures that the water stored inside remains clean, fresh, and safe to drink.

We prioritize quality and reliability, which is why our containers meet strict standards—ensuring maximum safety and comfort for our users.

Water canister with a tap, without an air vent. 12L

- **Capacity: 10L (max 12L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap storage within the canister wall
- Screw-in tap and cap
- No air vent
- Weight: 600g

Water canister with a tap, without an air vent. 17L

- **Capacity: 15L (max 17L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap storage within the canister wall
- Screw-in tap and cap
- No air vent
- Weight: 800g

Water canister with a tap, without an air vent. 22L

- **Capacity: 20L (max 22L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap storage within the canister wall
- Screw-in tap and cap
- No air vent
- Weight: 1000g

Sink without an air vent and with a dispenser 12L

- **Capacity: 10L (max 12L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Cap stored within the canister wall
- Screw-in tap and dispenser
- No air vent
- Weight: 620g

Sink without an air vent and with a dispenser 17L

- **Capacity: 15L (max 17L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Cap stored within the canister wall
- Screw-in tap and dispenser
- No air vent
- Weight: 820g

Sink without an air vent and with a dispenser 22L

- **Capacity: 20L (max 22L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Cap stored within the canister wall
- Screw-in tap and dispenser
- No air vent
- Weight: 1020g

Water canister with a tap and air vent 12L

- **Capacity: 10L (max 12L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap stored within the canister wall
- Screw-in tap and cap
- Equipped with an air vent
- Weight: 600g

Water canister with a tap and air vent 17L

- **Capacity: 15L (max 17L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap stored within the canister wall
- Screw-in tap and cap
- Equipped with an air vent
- Weight: 800g

Water canister with a tap and air vent 22L

- **Capacity: 20L (max 22L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap stored within the canister wall
- Screw-in tap and cap
- Equipped with an air vent
- Weight: 1000g

Sink with an air vent and dispenser 12L

- **Capacity: 10L (max 12L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Cap stored within the canister wall
- Screw-in tap and dispenser
- Equipped with an air vent
- Weight: 620g

Sink with an air vent and dispenser 17L

- **Capacity: 15L (max 17L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Cap stored within the canister wall
- Screw-in tap and dispenser
- Equipped with an air vent
- Weight: 820g

Sink with an air vent and dispenser 22L

- **Capacity: 20L (max 22L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Cap stored within the canister wall
- Screw-in tap and dispenser
- Equipped with an air vent
- Weight: 1020g

SET: Water canister with a bottom tap and handle 12L

- **Capacity: 10L (max 12L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap stored within the canister wall
- Screw-in tap and cap
- Equipped with an air vent
- Weight: 600g

SET: Water canister with a bottom tap and handle 17L

- **Capacity: 15L (max 17L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap stored within the canister wall
- Screw-in tap and cap
- Equipped with an air vent
- Weight: 800g

SET: Water canister with a bottom tap and handle 22L

- **Capacity: 20L (max 22L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap stored within the canister wall
- Screw-in tap and cap
- Equipped with an air vent
- Weight: 1000g

SET: Sink with a soap dispenser and handle 12L

- **Capacity: 10L (max 12L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap stored within the canister wall
- Screw-in tap and dispenser
- Equipped with an air vent
- Weight: 620g

SET: Sink with a soap dispenser and handle 17L

- **Capacity: 15L (max 15L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap stored within the canister wall
- Screw-in tap and dispenser
- Equipped with an air vent
- Weight: 820g

SET: Sink with a soap dispenser and handle 22L

- **Capacity: 20L (max 22L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap stored within the canister wall
- Screw-in tap and dispenser
- Equipped with an air vent
- Weight: 1020g

The KAMAI CAMP line features durable, reinforced HEAVY DUTY containers designed for safe water storage and transportation. Made from certified materials that meet hygiene standards, they ensure cleanliness and safe usage.

Thanks to their reinforced construction, they are highly resistant to mechanical damage, and the ability to store them both vertically and horizontally offers convenience and flexibility in any situation. Durable, leak-proof, and reliable – perfect for camping, outdoor expeditions, and everyday use.

Water canister with a bottom tap 5L

Water canister with a bottom tap 10L

Water canister with a bottom tap 20L

- **Capacity: 5L**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Reinforced walls "HEAVY DUTY"
- Screw-in tap and stopper
- Horizontal position
- Weight: 355g

- **Capacity: 10L**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Reinforced walls "HEAVY DUTY"
- Screw-in tap and stopper
- Horizontal position
- Weight: 535g

- **Capacity: 20L**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Reinforced walls "HEAVY DUTY"
- Screw-in tap and stopper
- Horizontal position
- Weight: 935g

Sink with soap dispenser 5L

- **Capacity: 5L**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Reinforced walls – "HEAVY DUTY"
- Screw-in tap and dispenser
- Horizontal position
- Weight: 400g

Sink with soap dispenser 10L

- **Capacity: 10L**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Reinforced walls – "HEAVY DUTY"
- Screw-in tap and dispenser
- Horizontal position
- Weight: 580g

Sink with soap dispenser 20L

- **Capacity: 20L**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Reinforced walls – "HEAVY DUTY"
- Screw-in tap and dispenser
- Horizontal position
- Weight: 980g

Water canister with top-mounted tap 5L

- **Capacity: 5L**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Reinforced walls – "HEAVY DUTY"
- Screw-in tap
- Vertical position
- Weight: 400g

Water canister with top-mounted tap 10L

- **Capacity: 10L**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Reinforced walls – "HEAVY DUTY"
- Screw-in tap
- Vertical position
- Weight: 580g

Water canister with top-mounted tap 20L

- **Capacity: 20L**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Reinforced walls – "HEAVY DUTY"
- Screw-in tap
- Vertical position
- Weight: 980g

Water canister without air vent 22L

- **Capacity: 20L (max 22L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap not retractable into the wall
- No tap included
- Screw-in cap
- No air vent
- Weight: 980g

Water canister without air vent with bottom-mounted tap 22L

- **Capacity: 20L (max 22L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap not retractable into the wall
- Permanently mounted tap
- Screw-in cap
- No air vent
- Weight: 1000g

Sink without air vent with bottom-mounted tap 22L

- **Capacity: 20L (max 22L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap not retractable into the wall
- Permanently mounted tap
- Screw-in dispenser
- No air vent
- Weight: 1000g

Water canister with air vent and bottom-mounted tap 22L

- **Capacity: 20L (max 22L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap not retractable into the wall
- Permanently mounted tap
- Screw-in cap
- Equipped with an air vent at the back of the wall
- Weight: 1000g

Water canister with air vent in the cap and bottom-mounted tap 22L

- **Capacity: 20L (max 22L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap not retractable into the wall
- Permanently mounted tap
- Screw-in cap
- Equipped with an air vent mounted in the cap
- Weight: 1000g

Sink with air vent and bottom-mounted tap 22L

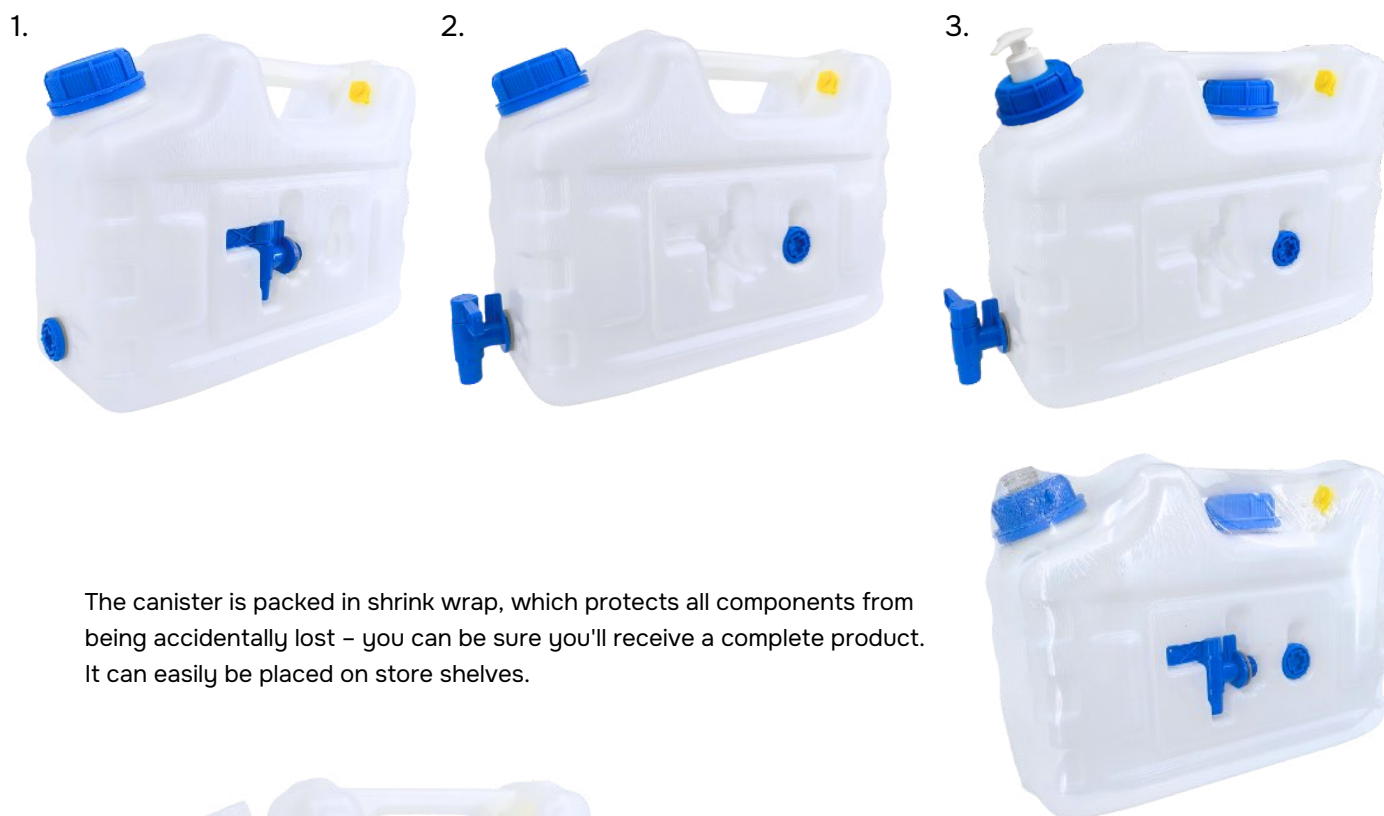

- **Capacity: 20L (max 22L)**
- Color: White, semi-transparent
- Material: HDPE (High-Density Polyethylene)
- Tap not retractable into the wall
- Permanently mounted tap
- Screw-in dispenser
- Equipped with an air vent at the back of the wall
- Weight: 1020g

The Kamai COMBO product line is nothing more than all the products from the PROFI series combined into ONE PRODUCT!

We listened to the needs and expectations of our customers and created a product that serves the function of 3 different products:

- Canister (1)
- Canister with tap (2)
- Sink with soap dispenser (3)

With this solution, there is no need to purchase each item separately.

The canister is packed in shrink wrap, which protects all components from being accidentally lost – you can be sure you'll receive a complete product. It can easily be placed on store shelves.

The set includes the following items:

- 12L canister
- Plug (bottom hole)
- Cap (top hole)
- Tap (bottom hole)
- Soap dispenser (top hole)
- Air vent

Holder for PROFI, STANDARD, and CAMP canisters and sinks with a blue strap

- Steel holder, laser cut
- Color: Black
- Powder-coated
- Holes for mounting
- Strap hooks
- Blue strap

Holder for PROFI, STANDARD, and CAMP canisters and sinks with a graphite strap

- Steel holder, laser cut
- Color: Black
- Powder-coated
- Holes for mounting
- Strap hooks
- Graphite strap

Holder for PROFI, STANDARD, and CAMP canisters and sinks with a yellow strap

- Steel holder, laser cut
- Color: Black
- Powder-coated
- Holes for mounting
- Strap hooks
- Yellow strap

KAMAI PROFI Blue Screw-in Plastic Tap

- Polypropylene (PP) tap for KAMAI Profi canister
- Color: Blue
- Diameter: 1/2"
- Screw-in with plug

KAMAI CAMP White Screw-in Plastic Tap

- Polypropylene (PP) tap for KAMAI Camp canister
- Color: White
- Diameter: 20/24mm
- Securing nut with seals

KAMAI CAMP Graphite Screw-in Plastic Tap

- Polypropylene (PP) tap for KAMAI Camp canister
- Color: Graphite
- Diameter: 20/24mm
- Securing nut with seals

KAMAI PROFI 150ml Soap Dispenser

- KAMAI Profi 150ml Soap Dispenser for Canister
- Color: Blue
- Diameter: DIN61
- The soap from the dispenser does not mix with the water in the container; soap and water remain separate in the sink.
